Exploring the Beauty Of Under Water

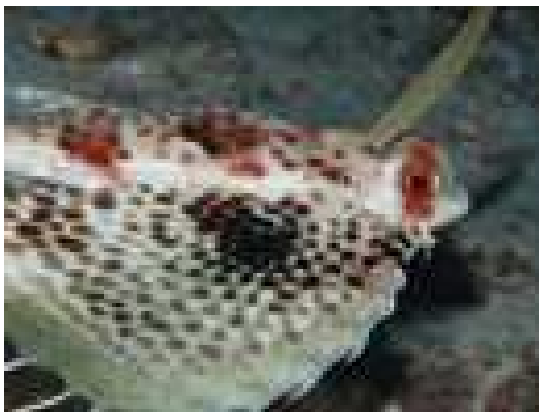

Amed

Two hours drive by car to the eastern of Bali, well-known Amed is the only numberless many kinds of the school fish swimming by your side and waving from sea fans you just can found in this dive sites, Even the shark and Napoleon fish are special identity from this area under water world fascinating, because this area is very slow current it was very good for beginner and under water photographer.

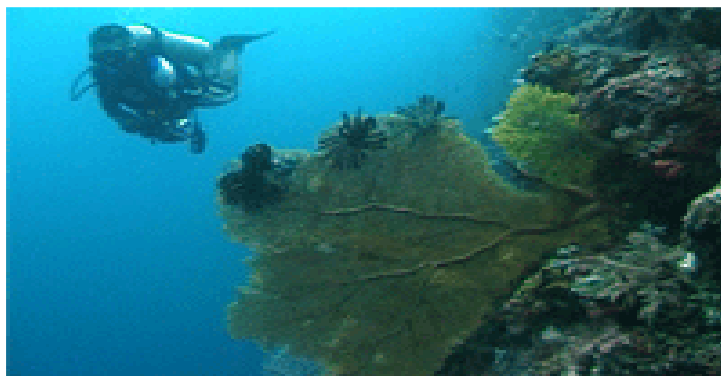

Tulamben Ship Wreck

Two and half hours drive by car from Sanur to Tulamben at the eastern part of Bali an excellent dive sites to be found. On the sunken ship in Second World War US LIBERTY, the wreck is 6 meters below the surface dropping to 30 meters at the bottom this diving destination is good for beginner and experienced divers because the wreck is already covered by much kind of corals, feeding the fishes is one of the attractions you can do here. And this area also very good for under water photographer.

Lembongan & Penida Island

The island located at the east of Sanur , approximately an hour cruising by our traditional outrigger boat or 30 minutes by speed boat, this area is one of the most famous dive sites in Bali. Because it has the clearest water every day of the year. Colorful fishes, a variety sponges, gorgonian and sea fans are fascinating. Manta point and Malibu point is one of the popular dive site from these island where you can see the Manta Ray especially for an experienced diver request blue corner point is your opportunity to see sun fish and big fish and shark.

Menjangan Island

One of the north west of Bali is known Menjangan island is famous for spectacular wall diving and drop off, hug deep water sea fans. Colorful sponges and numerous black corals tree the only part of magic. Watching for the school Jackfish and inquisitive but friendly Barracuda is one of the famous dive sites in Bali as the part of the national park island sister from Bali mainland sister. This area is suitable for all season diving where the magnificently of under water vitas will surprise mostly diver.
